EDUCATION

- **Avanthi Institute of Engineering and Technology** Hyderabad, India
Master of Computer Applications Sep 2024 - Jun 2026
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

SKILLS SUMMARY

- **Languages:** Python, SQL, C++, Bash
- **AI & Deep Learning:** Machine Learning, Deep Learning (CNN, RNN, LSTM), Computer Vision, OpenCV, MediaPipe
- **GenAI & NLP:** LLMs, RAG, LangChain, Transformers, Hugging Face, BERT, Ollama, NLP
- **Data Science & Libs:** Pandas, NumPy, Matplotlib, Seaborn, TensorFlow, Keras, Scikit-learn, SpaCy
- **Backend & Web:** FastAPI, Django, Flask
- **Cloud, Tools & DB:** AWS, Docker, Git, Vector DBs (ChromaDB, FAISS), PostgreSQL, MySQL

EXPERIENCE

- **Finexus Inc.** Remote, USA
Software Developer (Full-time) Feb 2026 – Present
 - **Issue Tracking & Resolution:** Tracked and resolved **JIRA tickets** through debugging and root-cause analysis across the **LOS (Loan Origination System)** and **LMS (Loan Management System)**, ensuring platform stability and reliability.
 - **System Chatbot Development:** Developed a **system chatbot** integrated within the LOS/LMS platform to guide users through workflows and resolve common queries efficiently.
 - **New Feature Development:** Designed and implemented new features for the **LOS** and **LMS** platforms, translating business requirements into functional, production-ready solutions.
 - **Agile Development:** Collaborated with cross-functional teams in an **Agile** environment, participating in sprint planning and daily standups to ensure timely delivery.
- **TechSharthi Consultancy Services India LLP** Hyderabad, India
AI/ML Engineer Intern Aug 2025 – Jan 2026
 - **Generative AI LLM Engineering:** Architected and deployed production-grade **Generative AI** applications utilizing **RAG (Retrieval-Augmented Generation)** to enhance response accuracy; streamlined data processing pipelines which automated manual workflows and saved **10+ engineering hours** per week.
 - **High-Performance Backend Development:** Designed and optimized scalable **RESTful APIs** using **FastAPI**, implementing asynchronous programming and **Pydantic** for data validation; successfully reduced model inference latency by **30%** while consistently handling a load of **1000+ daily requests**.
 - **Advanced Computer Vision Pipelines:** Engineered sophisticated image processing modules using **OpenCV** and **Deep Learning** frameworks, achieving a **95% success rate** in real-time object detection and feature extraction tasks integrated within the core production backend.
 - **System Optimization Deployment:** Collaborated on the full **SDLC** of AI products, from containerizing services using **Docker** to implementing robust error handling and logging, ensuring **99.9% system uptime** for internal AI-driven tools.

PROJECTS

- **AstroSharthi – AI Astrology Platform (GenAI, LLMs, FastAPI, Ollama, SQL):** Spearheaded a scalable GenAI application serving **500+** active users. Constructed a low-latency FastAPI backend for robust database management, automating personalized PDF report generation. Deployed an intelligent chatbot using local LLMs (Ollama) and a real-time multilingual translation pipeline to dynamically localize content. Tech: Python, FastAPI, Ollama, NLP, SQL.
- **SkinClaro – AI Dermatology Assistant (Computer Vision, CNN, MediaPipe, LLMs):** Designed an AI-driven dermatology assistant utilizing OpenCV and MediaPipe for precise real-time facial feature extraction. Integrated a custom Convolutional Neural Network (CNN) model achieving **92%** accuracy in skin condition detection, coupled with an LLM-powered chatbot to deliver personalized skincare assessments. Tech: Python, OpenCV, MediaPipe, CNN, Deep Learning, LLMs.
- **PostureXpert – AI Posture Analysis System (Computer Vision, MediaPipe, FastAPI):** Formulated an AI-powered real-time posture detection application tailored for yoga and fitness tracking. Utilized MediaPipe for precise human pose estimation, processing video streams at **30 FPS**. Built a high-performance FastAPI backend to efficiently deliver instant, AI-generated corrective feedback. Tech: Python, MediaPipe, FastAPI, OpenCV, Machine Learning.

ACHIEVEMENTS & OPEN SOURCE CONTRIBUTIONS

- **Kaggle Expert:** Achieved the 'Expert' tier on Kaggle, demonstrating proficiency in Data Science, Machine Learning, and data analysis.
- **Open Source Contributor (GSSoC):** Actively contributed to the GirlScript Summer of Code (GSSoC) community, successfully merging **10+ Pull Requests** across various projects.
- **Hacktoberfest Contributor:** Qualified for Hacktoberfest by successfully resolving issues and merging **10+ Pull Requests** in global open-source repositories.
- **Problem Solving (DSA):** Solved **250+** Data Structures and Algorithms (DSA) problems across coding platforms, showcasing strong analytical and logic-building skills.
